

# SIMPLE SOLUTIONS. BETTER BUSINESS.

In a crowded market, you need an edge to get your properties noticed. **MyKey.com**, the world's first vetted hotel and furnished accommodations booking engine, attracts a world of clients comparing hotel, suite, and housing options. From reaching new clients, to managing bookings, and simplifying your tracking and reporting, MyKey is designed to help your properties succeed.

**How do you find your next client? Let us do it for you.**

## WHY MYKEY:

### Attract New Clients

MyKey is the only booking engine that searches hotels and furnished accommodations in one location, attracting clients who had not previously considered suites to compare your property to their usual selections.

### Take Your Brand Global

Leverage your MyKey network of professionally managed properties to book your clients into other member locations. You serve your client under your brand, confident their stay is consistent with your standards, and share in the success.

### Earn Referral Revenue

Earn a percentage of the profits by helping your clients find accommodations in other markets. When a client you referred to another member of the MyKey family makes a booking, you get paid as well.

### Simplify Management

Your custom dashboard allows you to track your booking activities, manage invoices, and simplify reporting, no matter how many people enter bookings. MyKey makes management easy.

### Direct Access

MyKey.com connects you directly to your clients to quote, make special arrangements, and manage payments. There is no middle man or bidding process.

### No Set Up Fees

With MyKey you don't pay until you earn a booking. There is no upfront registration cost, bidding for contracts, or hidden fees.

### Reduce Risk

MyKey offers clients a protection plan to ensure the property is covered in the event of damage, infestation or liability issues.

### Manage Your Reputation

MyKey family members gain access to our digital reputation management professionals, here to help you manage your listings, bolster your social media coverage, and leverage your reviews.
